

Professional PC Companion

NEC MOBILEPRO™ 880

AT A GLANCE

- Instant-on productivity for e-mail, calendar, tasks, Web, thin client and more
- Touch-typeable keyboard is 92% of full size
- Brilliant 9.4" diagonal 64K color display with 800 x 600 resolution (SVGA)
- Extreme portability - just 2.6 lb. and 1" thin
- Expandable for wireless communications and extra storage

The MobilePro 880 H/PC Professional PC Companion is a complete productivity solution in a package so thin (1") and so light (2.6 lb.) that it can go with you practically anywhere.

Ideal PC Companion for enterprise applications

Whether as a communications platform, productivity station, or presentation tool, the MobilePro 880 is a pleasure to use thanks to its touch-typeable keyboard (one of the largest available on an H/PC) and generous display size.

Big enough to view the full width of many documents and Web pages, the 9.4" diagonal touchscreen displays 64K¹ dazzling colors at SVGA (800 x 600 pixel) resolution.

Powered by Microsoft® Windows® CE, Handheld PC Professional Edition, the MobilePro 880 incorporates pre-installed Pocket versions of the applications you need most—e-mail, word processing, spreadsheets, presentations, personal information manager (PIM), database, and more.

The integrated 56Kbps² V.90 modem helps you to keep in touch while on the road. And back at the office, you can easily synchronize your MobilePro 880 with your desktop or notebook PC. The MobilePro 880's one-year limited warranty³ includes a year of UltraCare® Service, which gives you—at no extra charge—a toll-free hot line and door-to-door pickup and return service in the U.S. and Canada.
