
NEC Versa VXi

Important Information

Congratulations on purchasing an NEC Versa VXi[®] notebook computer. The Versa VXi features a powerful processor and ample storage and drive space. It's also pre-configured for quick Internet access. With the Versa VXi, you have great versatility whether you use your system at home, in the office, or on travel.

If your system is running the Microsoft[®] Windows[®] 2000 operating system or the Microsoft Windows NT[®] operating system, please read the important information below.

Screen Saver Recommendation

NEC Computers has received reports of difficulties on systems using the Microsoft Windows 3D Maze screen saver; this problem may occur on systems running the Windows 2000 operating system or the Windows NT operating system. NEC Computers recommends selecting a different screen saver if your system is running either of these operating systems.

CAUTION NEC Computers recommends not using the Microsoft Windows 3D Maze screen saver on a system running the Windows NT or Windows 2000 operating system.
