## Introduction

NEC Corporation of America, “NECAM”, offers a breadth of service options for its hardware and software solutions, including: NECCare Standard, Gold and Platinum Maintenance and Service Warranty programs. This document will focus on NECAM’s Platinum Maintenance and Service NECCare program.

## Program Highlights

NEC Corporation of America’s Platinum NECCare Maintenance and Service Warranty Program offers you the following benefits:

- 3 Years of Upgraded Platinum Warranty coverage
- 3 Years, 4-hour Same-Day, On-site repair support “Or” 3-Years Customer Replacement Units (CRU) parts replacement
  - ◆ An authorized service technician will be on-site within 4-hours if NEC technical support deems a technician is necessary following trouble-shooting efforts between the Customer and NECAM
  - ◆ Replacement parts will also arrive within 4-hours of problem diagnosis. Spare parts will be stored at a NECAM authorized stocking location within a 50-mile radius of the customer installation address.<sup>1</sup>
  - ◆ 2-Years Limited Warranty coverage for the DAC Battery.<sup>2</sup>
  - ◆ The parts pool<sup>3</sup> for Platinum Maintenance and Support are stocked after the receipt of Customers’ purchase order by NEC. Lead-time is dependent on parts availability. NECAM will inform Customer by email when parts are in place.

---

<sup>1</sup> NECAM will use commercially reasonable best efforts to provide 4-hour on-site service. NECAM is not responsible for service calls missed outside the control of NECAM. If your location is outside of a NECAM authorized service coverage area, the response time may be longer and/or an additional travel charge may be assessed. Response times are objectives and not guarantees. In some cases, on-site service may not be available. All service response times are contingent upon parts availability. **Customer must be able to sign and receive parts as requested by NEC to meet 4-Hour, Same-day Service.**

<sup>2</sup> NEC will provide warranty replacement coverage for the DAC Battery for a maximum of 2 Years (24 months) from the time of installation of the server. Any replacement required for the DAC Battery after the 2 year period will be at the expense of the customer.

<sup>3</sup> **NECAM does not position all spare parts within the Platinum 50-mile radius spare parts pool for every unit that is shipped.** The Platinum Spare Parts Pool contains parts that may have industry documented regular failure rates, such as hard disk drives. Parts that are not deemed at-risk are stocked at NECAM’s regular warehouse location and shipped on a Next Day shipment to the customer.
